The Cronin Murder Trial.

Chicago, Aug. 30.—At the opening of of the criminal court this morning the states-attorney announced his readiness to proceed at once with the Cronin murder trial. A special venire was issued for fifty jurors, returnable at 2 o'clock, to which time the court adjourned.

When the afternoon session began it was announced that only half of the fifty talesmen had been secured, but the defense waived any technical objection on this ground. Then Lawyer Donohue, on behalf of his clients, O'Sullivan and Kunze, objected to the appearance of Attorneys If ynes, Mills and Ingham as assistants to the states-attorney in the prosecution, on behalf of Coughlin and Burke. The motion was overruled and the questioning of talesmen began. A G. Barger was subjected to a rigid examination and accepted by the state. Three other talesmen were seized by the state before adjournment, E. S. Clibridge, W. S. Bregley and A. W. Roth. An afternoon paper gives publication to a rumor to the effect that Cooney, "The Fox," who is under indictment with the other Cronin suspects, is in Milwaukee and will be produced at the trial when wanted. The authorities decline to say anything on the subject.

A meeting of a committee of strikers was held last night at which action was taken looking to making the strike general. A manifesto was issued this morning solemnly appealing to workers in every calling in London to strike Monday next unless the demands of the dockmen are conceded. The final demands are: Six pence an hour for overtime, counting from 5 p. m. until 8 a. m.; under the contract system pay to be eight pence during regular working hours, a shilling for overtime; nobody to be employed less than four has been called for Sunday.

The manifestores signed by all the London labor organizations, including the Steve deres, sailors and fishermen unions, numbering 60,000. MAMMOTH HOT SPRINGS, Aug. 30 .-[Special to the Independent.]-Three forest fires, supposed to be from camp fires, have raged for several days in Yellowstone Park. One of them started near the innetion of the Gibbon with the Firehole river, where their united waters form the East Madison. The other got away from a camping party near the Y. P. The entire force of the road builders under the direction of Lieut. Craighill, park engineer, was sent by E. Larmitine to aid the soldiers in their efforts to circumscribe these fires.
